GDPR secured cloud

Kizwork is a **sovereign and secured cloud** service platform with EU local servers allowing the organization of Hybrid Work, meetings, seminars and distance training in virtual reality with **personalized avatars and real privacy**.

Kizwork supports video meetings but our avatar system is much more efficient than video with much less carbon foot print & better connection quality, adding privacy at home

Works on phones, IOS,

Android, tablets, PC, Mac, Linux

Kizwork

Keys for Hybrid Working

Carbon neutral
Digital Twins
Metaverse for enterprise
Easifying Web3 adoption

Kizwork brings back the sense of belonging with freedom, humanity, and privacy.

MWC GSMA
GLOMO
2F. BEST MOBILE INNOVATION FOR WEB3
2023

Good for the planet

Our technology uses from 10 to 35 times less energy than any conventional video streaming solution. The secret is that the implementation of our 3D environment and avatars doesn't use more than conventional audio streaming. It means also that we can guarantee high-quality connectivity to everyone.

10 TO 35 TIMES LESS ENERGY
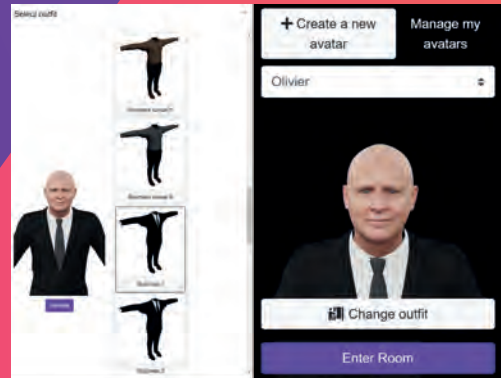

Your business needs Kizwork

Kizwork is a carbon neutral **Hybrid Working Platform for enterprises** with immersive set of **virtualised rooms with intuitive collaborative tools and personalised avatars.**
It recreates a living office while k**eeping your corporate identity as a digital twin**.

It is a an efficient and useful Metaverse for any enterprises **without compromising performances when remote working** as Kizwork consumes 10 to 35 times less Energy and Co2 than any conventional Video solution.

Kizwork embraces y**our ESG strategy with WEB3.0** by providing security and trust thanks to a Blockchain while generating NFT certificates and reliable Carbon credits.

A new experience

We provide a unique Hybrid Working experience based on virtualized rooms and intuitive collaborative tools

Personalized avatars provide privacy and improve well-being.
